Guy J. Brunda
13 Pine St. RD # 1
Nesquehoning, PA 18240

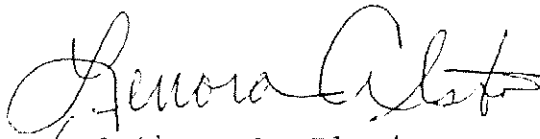

Dear Mr. Brunda:

This is in response to your letter of May 28, 1992, and telephone conversations with Specialists Dan Crowley and Tom Stewart of this Branch, in which you request information regarding ATF licensing requirements for model rocket motors.

The finished rocket motors that you propose to use are exempt from regulation by the Bureau of Alcohol, Tobacco and Firearms (ATF). You are not required to possess any licenses or permits from ATF to acquire or use these devices. There are also no ATF storage requirements that you must satisfy to hold these rocket motors.

We trust we have been informative to your inquiry. Please do not hesitate to contact us if you require more information.

Sincerely yours,

for Anthony A. Fleming
Chief, Firearms and Explosives
Operations Branch
